

Provider Alert: HHS CMS Provider Briefing on Response to Cyberattack on Change Healthcare

March 18, 2024

Dear Providers,

The Department of Health and Human Services (HHS) will hold an informational session for providers to share how it is responding to the cyberattack on Change Healthcare on **Tuesday, March 19, 2024, at 4:00 pm ET**. Deputy Secretary Andrea Palm, along with leadership from the Immediate Office of the Secretary and the Centers for Medicare & Medicaid Services (CMS), will lead the session. United Health Group will also attend and discuss their funding program.

You can register for the briefing using this [link](#).

We expect that CMS will provide an overview of how to apply for Medicare advance and accelerated payments, and leaders from UnitedHealth Group will demonstrate how to apply for funding the company has made available to providers. No additional details on the agenda are currently available, but updates will be provided if new information is released.

As a reminder, our [Change Healthcare Outage Overview Resource](#) page on Centene.com includes resources and support to help you navigate through this evolving situation, as well as details our approach to provider advances for those facing financial hardship. This page is updated routinely to ensure it is as current and helpful a resource as possible.

Thank you,

SilverSummit Healthplan
